Child Safe/Protection Policy Template

A Child Safe or Child Protection Policy will provide the framework for your business or organisation to create and maintain a protective environment for children in your operations, activities, and the communities in which you work.

TIP: Before writing your Policy conduct a risk or impact assessment on your organisation and its operations and activities. This will help you identify areas of strength and risk that you can make sure are covered in the Policy.

This template is a guide, and you should use your own style and language and ensure it is relevant to your values, context, and activities.
